

BAND SAW Ø 300 mm.

Article N° 1 128

Supplier : **MEP**
Type : **SHARK 332 SXI EVO**

State of the article : **6.0 New**

Number :

SHARK 332 SXI EVO, electro-hydraulic semi-automatic saw, operating even in manual cycle and dynamic semi-automatic, for cuts from 45 ° to the right up to 60 ° to the left.

- This microprocessor machine with a controlled axis represents the latest generation of MEP project controller designed exclusively for its own semi-automatic saws.

- Semi-automatic cycle: starting the cycle gives rise to the following operations:
- closing the vice and starting the engine
- lowering the head to perform the cut - stopping the engine - returning the head
- opening of the vice.
- Dynamic semi-automatic cycle: by lowering the head manually to the desired position; by pressing the push button on the handle, the semi-automatic cycle starts.
